GLOBAL CAREERS START HERE
BUFS

We are all connected to
and complete each other,
living in a single spatial platform,
the Earth.

To adapt to change and grow
in the global community,
you must have your
own competitiveness.

We support you to
improve communication skills with people
in different cultures and languages,
which are essential for the global environment.
We help you build resilience and flexibility
in this ever-changing world.

Our goal is to encourage every one of
you to become global leaders.

OUR FIRST AND FOREMOST PRIORITY IS TO SERVE OUR STUDENTS

I would like to extend my hearty welcome to Busan University of Foreign Studies (BUFS) to all of you. I believe universities need to focus on students and should help them find their purpose. To serve their purposes, we have devoted all our efforts to fostering competitive and talented individuals by offering them more opportunities for scholarships and overseas exchange programs. We have tried to make campus environments more inviting to students, in which students can dedicate themselves to studying and prepare themselves for the global stage. We have worked hard to ensure that your time in BUFS is filled with happiness and sweet memories. Yet, we will not be complacent with our achievement.

Firstly, we will foster ‘Global Convergence Leaders’ who can usher in the era of the fourth Industrial Revolution.

BUFS has abundant resources to cultivate global content professionals and global digital experts who are equipped with language skills, knowledge of cultures, and advanced technology. In addition, we provide project-based courses combined with academic research and teaching, rather than offering simply knowledge-delivering lectures. We enable our students to strengthen their capacity needed from industries and society.

Secondly, BUFS will further expand its global network to be truly global.

Our biggest goal is to lead and be ahead of globalization. At BUFS, students can have access to and learn up to 18 different languages and cultures of the world. Furthermore, we plan to establish up to 100 Global Cooperation Centers in the world’s major cities serving as hubs to promote personal exchange, offering internship programs and Korean language education. By sharing this extensive global network with our students, BUFS will grow to be a true global university.

Thirdly, we will work hard to reinforce industry - academic cooperation through our efforts to solve current problems in our local community.

The 'Open Campus Program' carried out in association with Busan Metropolitan City has helped us to find better ways to cooperate with industry. By studying specific cases solving local community problems, we will become an example for other local universities to follow in an effort to foster industry - academic cooperation.

Fourthly, we will try our utmost to create new values.

Not only solving local problems, but also addressing national issues and community situations, BUFS will create new values and boost start - ups. BUFS new educational movement such as active participation in the national projects, continuing education programs, on - line courses, and foreign student's recruitment will help us create new values to our society.

Lastly, we will make BUFS a place where you find a warm welcoming atmosphere. In addition to our first vision to be a cradle of humanity education, we will train leaders with a warm heart who are most needed in our society.

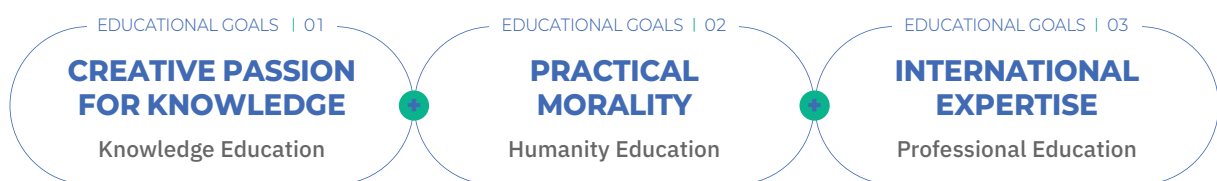

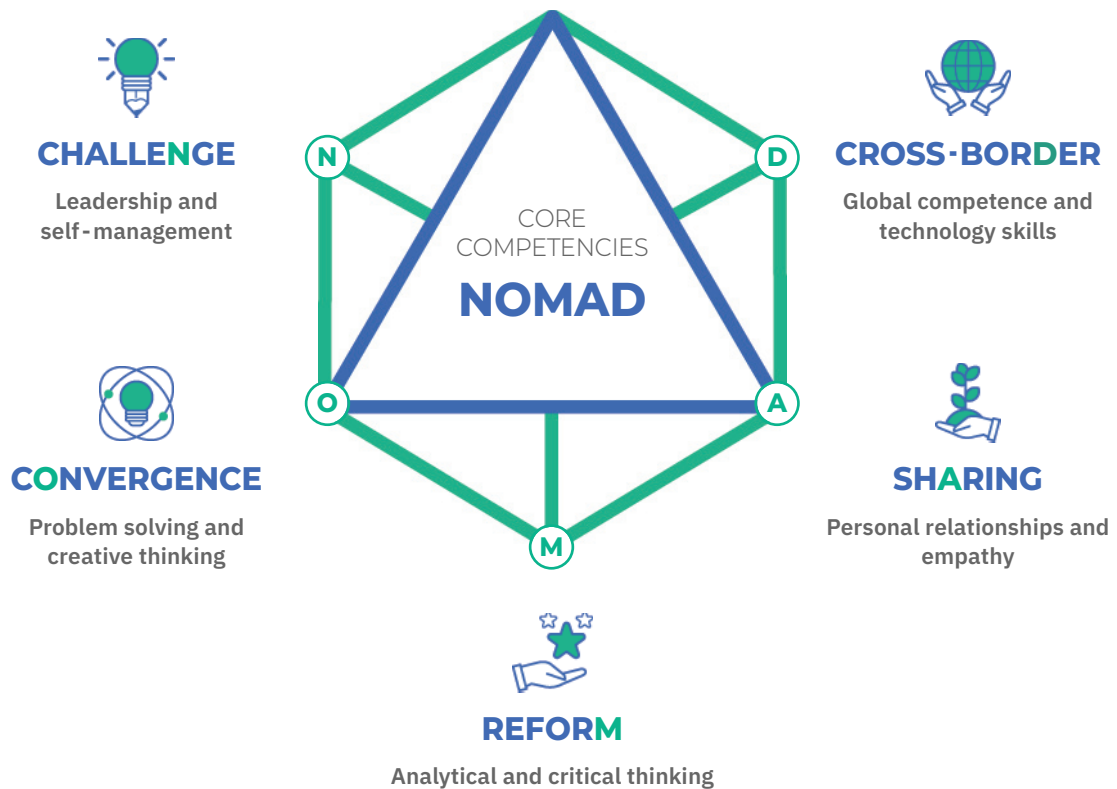

In conclusion, we are devoted to be a university which contributes to our community and the world by providing the best spiritual, humanistic and global education.

Dr. Soon - Heung CHANG

President of Busan University of Foreign Studies

| EDUCATIONAL PHILOSOPHY |

BUFS cultivates global citizens with social awareness and competitiveness, and creative professionals who serve the development of the nation and global prosperity.

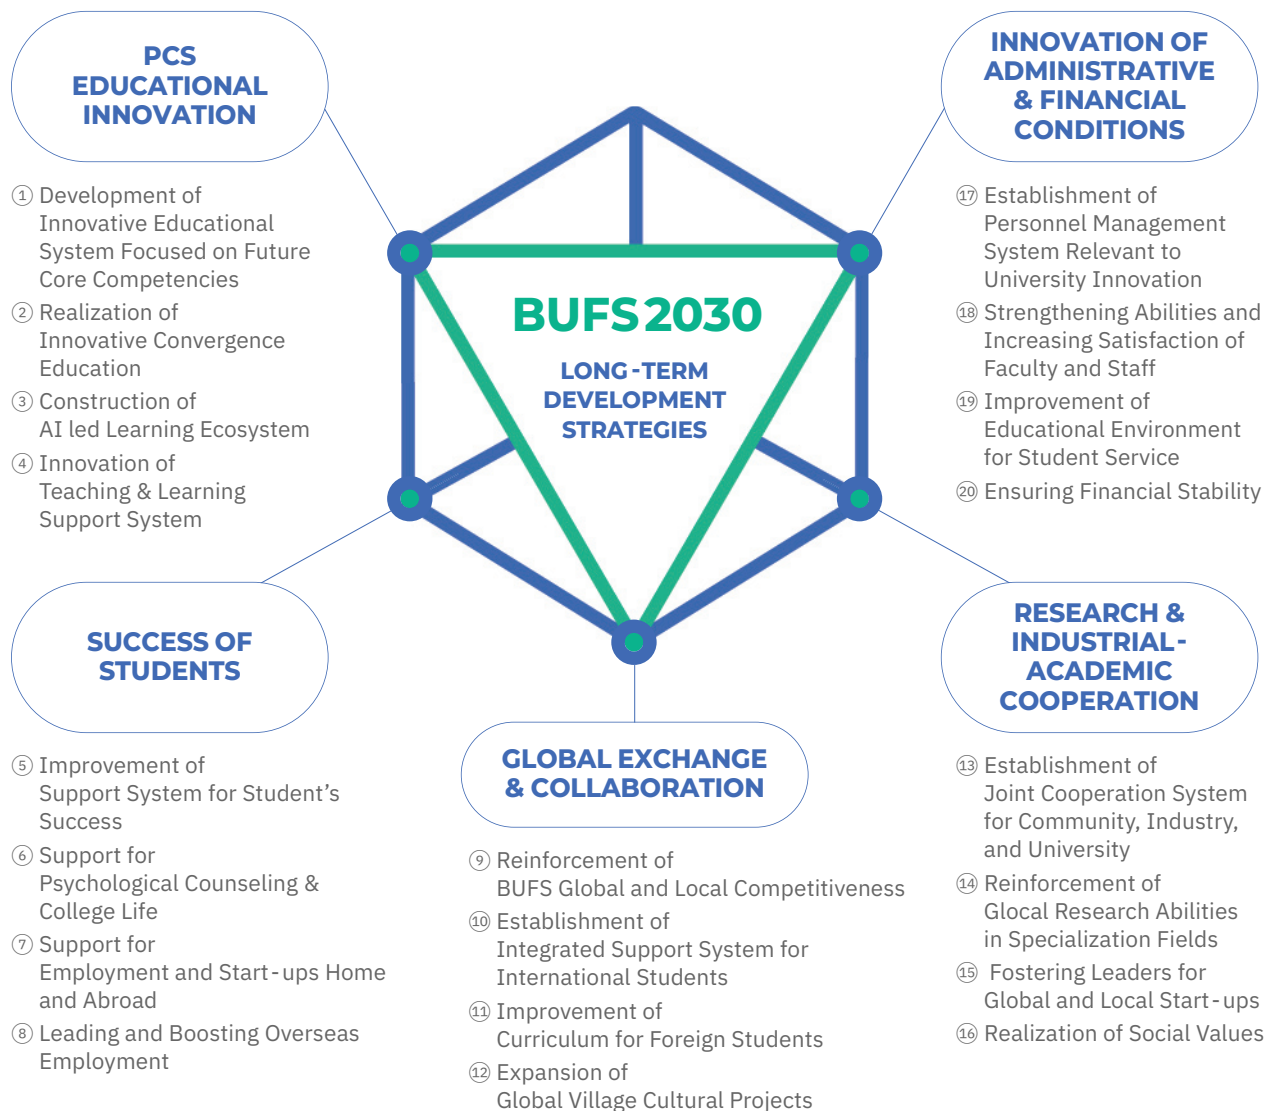

| THE VALUE OF BUFS STUDENTS |

CREATIVE MINDS POSSESSING THE SPIRIT OF NOMAD BASED ON THE UNDERSTANDING OF DIFFERENT LANGUAGES AND CULTURES

“NOMAD” means being a member of a group of people who move from place to place instead of living in one place all the time. NOMAD in BUFS is *paja*, a combination of different characters of the five core competencies desired for BUFS students. It reflects the value of BUFS students who move on to the future by building their capacity and resilience instead of being complacent or staying in their comfort zones.

| DEVELOPMENT STRATEGIES |

BUFS creates educational opportunities for students to immerse themselves in learning by its own systematic approach in education.

| BUFS OBJECTIVES |

BUFS aims to expand inter-disciplinary convergence programs and practical education for sustainable development. We develop local community-centered cooperation programs. Students can find career options to get a decent job abroad and/or start their own business with the support of BUFS. While setting up detailed and substantial learning support system and an infrastructure of international cooperation and exchange, BUFS fosters future global leaders.

I BUFS VISION AS A SPECIALIZED UNIVERSITY I

BUFS endeavors to become a leading university on its specialized education to foster global leaders and globalize the local community.

I FUTURE DIRECTIONS IN SPECIALIZATION I

In relation with BUFS' Long-term Development Strategy of Student Service, Boundarylessness, Hyper Connection, and Co-existence with Local Community, BUFS is committed to become a specialized university in foreign language education who will cultivate global talent. At the same time, it endeavors to foster global leaders equipped with creative thinking and problem solving abilities which much needed in the future society, and thus promotes specialization to lead the globalization of its local community.

I SPECIALIZATION STRATEGIES I

Based on the comparative advantage(global universality) of its specialization initiatives, BUFS aims to create results from academic specialization(glocal easiness) in relation to the local community and industries. To achieve the goal, our specialization strategies consist of ① specialization in future education, ② specialization in academic structure, and ③ specialization in cooperation with community, industry, and university.

| FOUNDING SPIRIT |

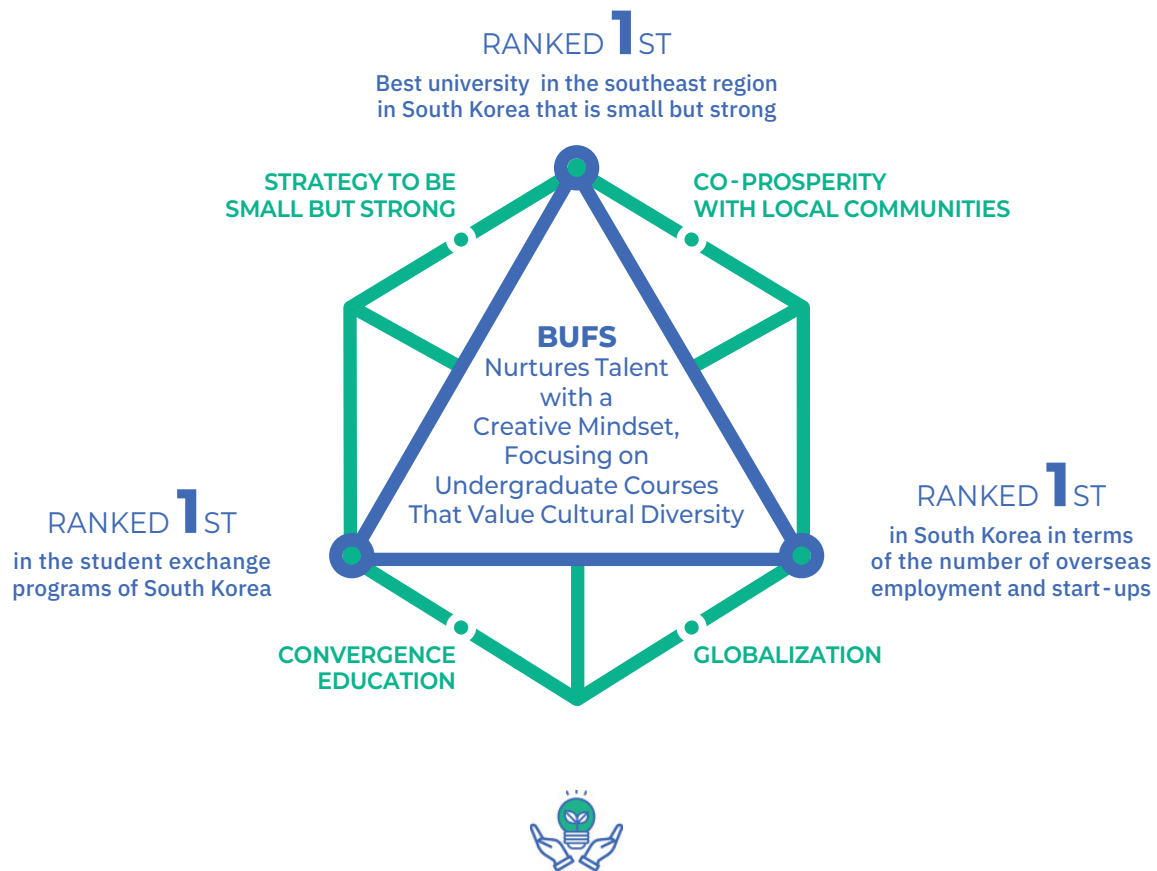

THE FEAR OF THE LORD IS THE BEGINNING OF KNOWLEDGE

- PROVERBS 1:7 -

Inspired by the practice of Christian love and service and democratic ideals,
BUFS produces enlightened citizens with originality and leadership

| BUFS SPIRIT |

While studying and teaching foreign languages and foreign studies, BUFS cultivates capable individuals with a global mindset who can contribute to the development of Korea and the world

| DEVELOPMENT STRATEGIES TARGETING FIVE MAJOR SECTIONS |

- Education and research for convergence education on a global level
- Expansion of global career development programs for students
- Transforming BUFS into a global campus attracting international students and promoting global exchange and cooperation
- Creating social values and sustainable development through industry academic cooperation and engagement with local communities
- Streamlining administrative and financial system

1959 ~ 2000

Sungchang Educational Institution was established on December 24, 1959 under the belief of the late Dr. Tae-Sung CHUNG, who wanted to contribute to the nation's development by fostering talent. The Foundation changed its name to Sungji from Sungchang in November 1981 and opened Busan University of Foreign Studies with 10 departments, under the founding philosophy of "The fear of the LORD is the beginning of knowledge." Since the first admission to BUFS in March 1982, BUFS was upgraded a full-scale university in 1991, positioning itself as a representative university of Busan region.

This is a task-based program home and abroad, in which students carry out intensified major-related assignments of the courses such as Capstone Design and PBL. Based on the knowledge acquired during the semester, one selected team gets to travel abroad with their professors to complete their assignments.

NADAUM Program

Based on the knowledge acquired during the micro-major lectures, participants in this program will have an opportunity to do self-directed learning and collaborate to develop and carry out overseas projects so as to find and solve the problems in the international community,

P

Problem-Finding & Solving

Students find problems in the international community based on the knowledge acquired during the micro-major lectures

S

Self Learning

Students learn by themselves how to solve the problems

C

Collaboration

Students collaborate with their peers to carry out overseas projects

Glocal Marketer Program

This is a task-based program, in which students have an opportunity to meet actual overseas buyers and promote and sell products of contractors. Students apply the knowledge and information they have learned, learning practical business skills and being culturally exposed.

BUFS International Cooperation Division

Students take the initiative to plan and provide volunteer services around the world. Before COVID-19, students volunteered in various countries, including Vietnam, Cambodia, Kyrgyzstan, and Mexico in the second half of 2019. With the end of the COVID-19 pandemic, the International Cooperation Division is working on more diverse service programs.

BUFS Challenge Program | Global Volunteering |

Students in this program will have a chance to do voluntary works such as building houses in the Philippines and teaching local residents Korean language, Korean martial art-Taekwondo, and painting. Since its introduction in 2007, this program has been carried out in Cambodia and the Philippines, attracting a lot of students' attention.

GLOBAL EXCHANGE PROGRAM

2+2 Dual Degree Program

In accordance with the agreements entered between BUFS and partner universities, students, who attend two universities at home and abroad for 2 years each and complete mandatory courses, will earn 2 degrees.

3+1, 7+1 Study Abroad Program

In this program, credits earned in an overseas partner university for 1 year or 1 semester will be transferred to the BUFS credit system. Students are allowed to enhance their global mindset through this system.

Semester Abroad Program | SAP |

Under this short-term language program, students take language training courses at sister universities in English-speaking countries, such as the U.S., Canada, Australia, Malaysia, the Philippines, etc., during a semester(12 ~ 16 weeks) or vacation(4 weeks). They are expected to immerse themselves in English and are exposed to foreign cultures as well.

BUILD COMPETITIVENESS AND MOVE ONTO A GLOBAL STAGE

BUFS STUDENT EMPOWERMENT PROGRAM

With the abilities and know-how in the foreign language education, BUFS endeavors to create opportunities for students to communicate with native speakers on various topics. The Student Empowerment Program will be a stepping stone for students to enhance their capacity and discover new opportunities on the global stage.

Tandem in Classrooms

Tandem is a form of bicycle designed to be ridden by two people. In BUFS, tandem also means that “a learning method in which international students and local students make a pair to teach each other their native language.” The pairs of students attend the classes and do other curricular activities together, improving their communication skills with foreigners.

Tandem Zone

In this program, foreign professors and mentors for international students have informal gatherings with local and foreign students respectively as an extracurricular activity on the BUFS campus. Students are encouraged to experience different cultures and languages in a more friendly atmosphere.

Tandem Knowledge Sharing

It can be an extended form of “Tandem in Classrooms.” Students are teamed up not only for the curriculum but diverse activities, including school life, cultural experience, and self-development.

E-Tandem

Students having different backgrounds of languages and cultures make a pair to learn each other’s cultures and languages via online media.

Tandem Camp for Prospective Students

Students who are soon to start their first semester at BUFS, make a pair with foreign seniors to exchange their languages, cultures, college life, etc. This program helps new students better adjust themselves to college life.
